**DETAILED ACTION**  
***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-7, drawn to a shelf stable confectionary product.

Group II, claim(s) 8-16, drawn to a method of producing a panned confectionary product.

Group III, claim(s) 17-20, drawn to a method of producing an aerated confectionary product.

The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the technical feature linking the groups is a confectionary product having a chocolate core and a sugar based coating, wherein the chocolate core is dispersed with gas bubbles having an average diameter of less than 25 microns; Chlappa (EP 0730826) teaches of chocolate that has improved properties because the chocolate contains microbubbles with diameters of 5 microns (Column 1 lines 1-13 and Column 6 lines 38-44); Brown (WO 2001/015543) teaches of coated confectionary products that are improved by layering (abstract); thus the technical feature linking the inventions is taught by the references of record, Chlappa and Brown, and does not relate to a single general inventive concept or special technical feature.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

Art Unit: 1794

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kelly Bekker whose telephone number is (571) 272-2739. The examiner can normally be reached on Monday through Friday 8am-4:30pm.
